Eco Council and Nourish to Flourish

16.11.22

We discussed our roles and responsibilities: To be responsible, to be caring, to be the voice of our class.

We have set some targets:

Eco Council: We will make sure that North Elmham Primary School is recycling.

Questions to ask our class:

What can we recycle?

Where can we recycle?

What can we NOT recycle?

What do we need?

Eco Council: We will make sure that we look after our school and not drop rubbish.

Questions to ask our class:

Do we all throw rubbish in the bin?

Where do people throw their rubbish?

What will we do about it?

Can we wipe our feet when we come in to stop the mud coming in to our school?

Nourish to Flourish: We are going to make sure we are a healthy school.

Do we all have water in our bottle?

Do we all bring fruit as a snack?

Do we bring a healthy packed lunch?

What is a healthy packed lunch?

Nourish to Flourish: We are also going to make sure that Sheep class are OK at lunch in the lunch hall.

Nourish to Flourish ambassadors could support sheep class by carrying their hot lunch or showing them how to use a knife and fork.
